Getting paid: organiser payout SOP

How ticket money reaches you: what we keep, what you receive, and how to request a bank payout.

1. Purpose

This document is for new TicketPulse organisers. It explains the platform fee, how your balance is calculated, how to request a payout to your bank account, and what happens after you ask. Following it keeps your payouts fast and avoids delays.

2. The fee: 6% of ticket sales

TicketPulse keeps **6%** of your confirmed ticket sales. The remaining 94% is your net earnings and is what you can withdraw. The fee is deducted automatically; you never pay it separately.

Example	Amount
Confirmed ticket sales	USD 1,000.00
TicketPulse fee (6%)	- USD 60.00
Your net earnings	USD 940.00

> Payment gateway charges are added to the buyer's total at checkout as "gateway fees". They are paid by the buyer and are not taken from your earnings.

3. How your balance works

Term	Meaning
Gross revenue	Ticket sales on paid and completed orders (tickets actually issued).
Net earnings	Gross revenue less the 6% TicketPulse fee.
Paid out	Payouts already sent to you.
Pending	Payout requests still being reviewed or processed.
Clawbacks	Money already paid to you that a later refund showed should not have been (see section 7).
Available balance	Net earnings, minus paid out, pending payouts and clawbacks. This is the most you can request.

4. Payout method: USD bank transfer

Payouts are made by bank transfer, in US dollars (USD). Have these details ready:

- Bank name
- Account holder name (exactly as it appears on the account)
- Account number

> We pay exactly the details you submit. Check the bank name, account holder and account number before sending the request. Payouts to incorrect details can fail or be delayed.

5. How to request a payout

1. **Open Payouts**
   Sign in to your organiser account and open Payouts. Check your available balance.
2. **Choose Request payout**
   Enter the amount you want to withdraw in USD.
3. **Select bank transfer**
   Enter your bank name, account holder name and account number.
4. **Submit and keep the reference**
   You receive an email confirmation with a short payout reference. Quote it if you contact support.
5. **Wait for processing**
   Track the status on the Payouts page (see section 6).

Rules

- Minimum request: USD 1.00.
- You can request up to your available balance, never more.
- Only one active payout request at a time. Wait for the current one to finish before asking again.
- Payouts are currently available in USD only.

6. What happens after you request

We normally process requests in about 24 hours. Bank processing times and verification checks can make it a little shorter or longer.

Status	What it means
Pending	Received and waiting for review.
Approved	Reviewed and cleared for payment.
Processing	The bank transfer is being made.
Paid	Sent to your bank. Allow your bank its usual time to show the funds.
Held	Paused while TicketPulse completes a check. Contact support if it stays held.

Rejected	Not approved. Contact support for the reason.
Failed	The transfer did not go through (for example, wrong bank details). Contact support.
Cancelled	The request was cancelled and the amount returns to your available balance.

7. Refunds and clawbacks

If a ticket is refunded after you have already been paid for it, the refunded amount is recorded as an outstanding clawback and deducted from your available balance. It reduces what you can withdraw next; you do not need to send money back. Your payout statement lists any outstanding clawbacks.

8. Account trust levels

Level	Requirement
New	Your organiser account is awaiting approval.
Verified	TicketPulse has approved your organiser account.
Trusted	An approved account with at least 3 payouts paid.

Your current level and progress are shown at the top of the Payouts page.

9. Statements and records

On the Payouts page, choose Download PDF for a branded payout summary and statement: your earnings by event, how your balance was calculated, and every payout with its date, reference, status and amount. Pick From and To dates to limit the payout list to a period. The statement number on each PDF identifies it if you need to refer to it later. Keep these for your own accounts and tax records.

10. New organiser checklist

- Complete organiser onboarding and wait for account approval.
- Publish your event and confirm your ticket prices. The fee is taken from ticket sales.
- After sales start, open Payouts to see your balance and trust level.
- Have your bank name, account holder name and account number ready.
- Request a payout once you have an available balance, and keep the payout reference.
- Download your statement after each payout for your records.

11. Need help?

Visit the Help Center or contact TicketPulse at ticketpulse.tech/contact. Include your payout reference and the email on your organiser account.
